

## DIAGNOSTIC IMAGING CENTER

- **Magnetic Resonance Imaging (MRI)**
- **Computed Axial Topography (CT Scan)**
- **Fluoroscopy**
- **Multiple X-Ray Suites**
- **Ultrasound**

GSVS's diagnostic imaging capabilities at our *on site* imaging center provide the needed link between physical medicine and the "technology" of magnetic resonance imaging (MRI) and computerized tomography (CT) scanning for state-of-the-art diagnostics in a referral practice setting. These capabilities afford comprehensive radiographic examination techniques and are complemented by ultrasonography (abdominal and thoracic), and fluoroscopy, likewise available at our Hospital. Modalities such as these allow non-invasive evaluation for a variety of disorders including cancer, neurologic abnormalities and many others. As always, GSVS's own staff of boarded specialists is available to provide immediate consultations at the time of diagnostic testing.

## Our Facility

Garden State Veterinary Specialists was founded in 1994, by Dr. Thomas D. Scavelli. GSVS is a multi-disciplinary **REFERRAL ONLY HOSPITAL** located right in your neighborhood. Our goal is to provide progressive state-of-the-art veterinary care in the fields of surgery, internal medicine, cardiology, neurology/neurosurgery, ophthalmology, dermatology, oncology, nuclear medicine and critical care. Our 24-hour referral hospital and emergency/critical care unit consists of a team of experienced, dedicated specialists utilizing state-of-the-art diagnostic technologies, cutting edge medical procedures and an exceptional support staff to provide a caring, nurturing, comprehensive environment. We are committed to making the referral experience one of personal service.

## Referral Policy

Patients treated at Garden State Veterinary Specialists must be referred by their veterinarian. The patient will only be treated for the condition for which they were referred, no routine procedures (i.e. vaccinations, prophylactic heartworm testing) are performed on any patients of the hospital.

# When Your Pet Needs the Care of a **SPECIALIST...**

## Ask Your Vet About **US.**

## SURGERY

- Multiple Surgical Suites
- Soft Tissue Surgery
- Oncologic Surgery
- Orthopedic Surgery
- Neurosurgery

The Surgical Service at Garden State Veterinary Specialists consists of three

full-time Board Certified Diplomates of the American College of Veterinary Surgeons, including the founder and director of Garden State Veterinary Specialists, Thomas D. Scavelli, DVM Diplomate ACVS. The Surgery Service works as a team with our other specialty groups in Internal Medicine, Emergency & Critical Care, Neurology, Oncology Ophthalmology, Cardiology and Dermatology.

## EMERGENCY & CRITICAL CARE

- 24 HOUR EMERGENCY TREATMENT
- Continuous Nursing Care 24/7
- Veterinarian always in attendance

Our Hospital has both an Emergency Service and Intensive Care Unit managed by a Veterinarian Board Certified in both Internal Medicine and Emergency/Critical Care. The service is fully equipped and prepared to handle practically any emergency situation that may arise, swiftly and competently. Your pet and family will receive the expertise and support of a dedicated staff in a caring, nurturing environment available 24 hours a day, 7 days a week, 365 days a year.

## NEUROLOGY / NEUROSURGERY

- On-site MRI and CT Scan Imaging Capabilities

Our Neurology/Neurosurgery Service comprises a team of five Board Certified Specialists, two Neurologists and three Surgeons. Our team provides state-of-the-art care for disorders of the brain, spinal cord, and peripheral nervous system. They work closely with other specialists in managing head trauma patients, seizures and other disorders. We are the only hospital in the State of New Jersey that offers MRI and CT scanning onsite. Patients therefore, do not have to be transported to another facility for diagnostic imaging.

## NUCLEAR MEDICINE

- Radioiodine treatment for Feline Hyperthyroidism

Garden State Veterinary Specialists offers radioiodine treatment to cats. While this is the preferred treatment for people with the

same disease (hyperthyroidism), we are one of the few specialty hospitals that have acquired the necessary radioisotope permits issued by the NRC (Nuclear Regulatory Commission) to offer this treatment option. Our veterinarians are fully qualified to treat cats with this disease and are best qualified to suggest other available treatments when indicated.

## INTERNAL MEDICINE

- Ultrasound
- Videoscopy
- Fiberoptic Scoping

Our specialists in Internal Medicine are Board Certified Diplomates of The American College of Veterinary Internal Medicine. The Medicine

Department receives referrals in complex medical cases such as diabetes, hematologic disorders, gastrointestinal diseases and many other maladies. They also provide a wide range of chemotherapy services for cancer patients.

## ONCOLOGY

- Chemotherapy
- Surgical Oncology
- Radiation Therapy

A Board Certified Oncologist works together with the other specialists in

our hospital to provide the highest quality of care for patients with localized or metastatic disease. Radiation therapy offers the patient a therapeutic dose of radiation to treat a variety of malignant and non-malignant conditions. This treatment protocol utilizes a Linear Accelerator and three-dimensional planning systems.

## OPHTHALMOLOGY

- Cataract removal
- Laser surgery for glaucoma
- Electroretinograms

Our on-staff Board Certified Ophthalmologist performs a complete array of diagnostic and therapeutic procedures to manage all medical and surgical disorders of the eye. Our ophthalmologist also works in conjunction with other specialists within the hospital in Neurology and Internal Medicine to provide the most comprehensive care to our patients.

## DERMATOLOGY

- Allergies
- Diseases of the skin

A Board Certified Dermatologist treats patients for a variety of skin diseases and performs allergy testing on referred patients.
